EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerald Shekelton on November 5, 2008.

The application has been amended as follows:

In claim 12, line 2, delete "or 10"

Allowance

The following is an examiner's statement of reasons for allowance: The closest prior art, Salles, discloses a rod member, but fails to disclose or render obvious a non-rotating member having a disk shape, as in the context of claims 5 and 9. There is no motivation to modify the shape of Salles because of the significant differences in shape and different effects of fluid flow that such a change would provide to the operation of the apparatus. The reasons for allowance from the office action mailed 6/17/08 are also repeated here.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
